

# Residency

Upon successfully completing FounderHUB or LaunchHUB, founders have the opportunity to continue their journey with our Residency Program, continuing to build on and fast-tracking their progress.

Residents gain access to a dynamic co-working space, HUBday events, check-ins, a library of resources and community connections to help founders pull it all together.

**HUBday  
events**

Residents are invited to our exclusive HUBday event series which takes place on the last Wednesday of every month. These events will help deepen your knowledge on business topics, meet other founders in Residency and explore the world of entrepreneurship.

**Co-working  
space**

The residents will have up to 6 months access to the RMIT Activator collaboration space (Building 98, 102 Victoria Street, Carlton) filled with meeting rooms, hot desks, kitchen facilities and of course a community of startups, founders and entrepreneurs just like you!

**Check-ins**

Residents won't be short of support, as you will continue to work alongside your fellow residency members. The group will meet monthly for check-ins to help keep you accountable, grow your ideas and push your boundaries.

**Community  
connections**

We are lucky to have a wide network of experts at RMIT University and startup founders. We would love to help you accelerate your founder journey by connecting you with the right people from our community.
